Brainstorm & Idea Prioritization

1

Problem Statement :

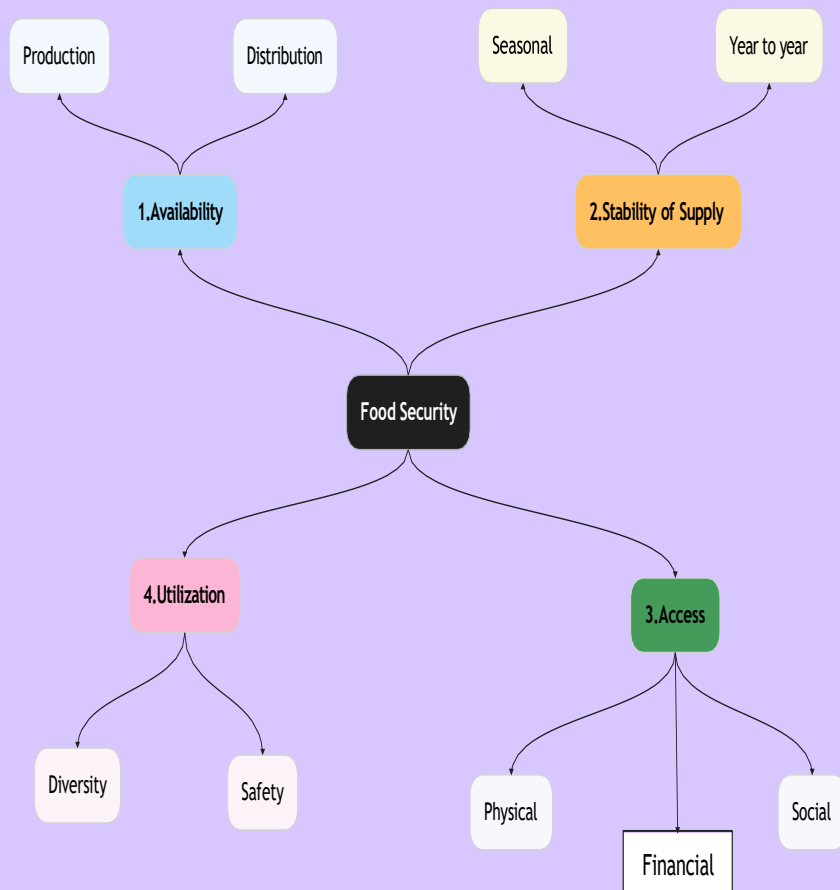

"Analyzing and Enhancing Food Security in India's Culinary Landscape"

Food security in India is a multifaceted issue with social, economic, and cultural implications. As the world's second-most populous country, India faces unique challenges in ensuring that its diverse population has access to safe, nutritious, and culturally relevant food. This problem statement aims to address the food security issues.

2 Brainstorm :

Organize ideas into a structured diagram :

Mind map :

Food Accessibility

Assess the affordability and availability of food.

Nutritional Status

Measure nutritional well-being using indicators like malnutrition rates.

Regions

Analyze food security by different regions or states in India

Policy Measures

Evaluate the impact of various policy measures on food security.

List of ideas :

1.Availability	2.Stability of supply	3 Access	4.Utilization
Production	Seasonal	Physical	Diversity
Distribution	Year to year	Financial	Safety
	Social		

3 Idea prioritization :

Food security index
